MM Integrated Feed & Fish Value Chain

Bo, Sierra Leone | Private sector integrated aquaculture, feed and value-addition platform

MM Feed & Fish Business is scaling an operating aquaculture nucleus in Bo into an integrated protein platform linking maize and soybean production, feed milling, fish farming, value-added processing, cold-chain distribution, renewable energy and organic fertilizer.

Commercial aquaculture production

Intensive fish farming with scalable production systems

INVESTMENT OPPORTUNITY

Growth capital will expand processing, feed production, cold chain, renewable energy, working capital and structured out-grower production. The platform is designed to sell affordable protein into retail, hospitality, institutions and selected regional markets.

US$16.46m Investment ask	**US$11.4m** CAPEX
10,000 MT/yr Fish scale target	**1 MW** Clean energy target

INTEGRATED VALUE CHAIN

INPUTS	FEED	AQUACULTURE	VALUE ADD	MARKET
2,000 ha nucleus farm + crop out-growers	Fish and poultry feed mill	Fingerlings, grow-out ponds and fish out-growers	Fresh, smoked, canned and powdered fish	Cold chain, institutions, retail and export

INDICATIVE CAPITAL PROGRAMME

Processing, buildings & QA	**US$2.82m**
Feed mill & farm support	**US$0.55m**
Cold chain & refrigerated fleet	**US$1.84m**
Biogas, fertilizer & solar	**US$2.48m**
Working capital & out-growers	**US$5.06m**
Vehicles, systems & contingency	**US$3.71m**

Total indicative programme: US$16.46 million

BANKABILITY & INVESTOR PRIORITIES

- **Commercial validation**
  Validate sales volumes, prices and institutional/offtake demand.
- **Technical readiness**
  Complete FEED, pond expansion design and cold-chain sizing.
- **Standards & ESG**
  ESIA, HACCP/food safety, water, waste and biosecurity plans.
- **Financeability**
  Audited accounts, lender-grade model, insurance and working capital plan.

INVESTMENT SOUGHT

Blended growth capital for processing, feed production, cold chain, renewable energy and out-grower expansion. Illustrative finance mix: 40% impact/growth equity, 45% senior or concessional debt and 15% technical-assistance or catalytic capital. Final structure should follow audited financials, validated offtake and lender due diligence.

Processed fish

Maize & soy

Feed mill

Cold chain

DUE DILIGENCE NOTE Indicative screening figures only. Sponsor projections, yields, market assumptions and returns require independent validation.
